

Black Belt EXCELLENCE

Goals

A **goal** is a desired result that a person envisions, plans, and commits to achieve.

In martial arts the goals are belts. We set the target for black belt. It is not easy, but we need to work hard to win and don't stop when we have a challenge. The way we do it is by making decisions, constantly pressing forward and getting help from our "team" - our instructors, classmates, and family members. Eventually we come to the day of the Black Belt test and we're ready to score and hit the goal of black belt.

Goal Setting is important in everything we do. If you want to get a good grade in school, you set that as your goal. You then work, not letting anything stop you. You ask for help, press a little harder, never giving up, and one day you reach the goal of a good grade.

Complete the assignment for goal setting on the following page.
